

Learning and Teaching with Technology

Prepared by Clayton R. Wright, wrightc@macewan.ca,

The number of resources on the World Wide Web that deal with teaching and learning is infinite. This short list of selected sites may help you reduce the time it takes to find useful information and links. Although this list has a Canadian focus, it also contains international links that will be helpful to a broad spectrum of educators.

- **General**

Colleges and University Home Pages is an alphabetical listing to more than 3,000 university home pages. <http://www.mit.edu:8001/people/cdemello/univ.html>
