INTRODUCTION

Campaign Background

• According to Tompkins et. al (2005), “small islands ...are prone to experience significant rises in sea temperatures, annual rises in sea level, changes in rainfall pattern and increase in the frequency of extreme weather conditions.

• According to Moore (2010), “climate features have a statistically significant impact on tourism demand in the Caribbean, a change in climatic features ...could lead to destination substitutes.
CAMPAIGN OBJECTIVES

The **strategic objectives** of the campaign is:

- To send a consistent unified message to our target groups (policy makers, government planners, NGO’s, stakeholders, tourism developers, students, academic personnel, general public)

- To initiate and inspire change by translating knowledge into action methodology

- To organize an effective campaign that would reach potential change agents within Jamaica and by extension the Caribbean

- To influence social norms changing existing attitudes and perceptions of Climate Change
CAMPAIGN SIGNIFICANCE

• This campaign will benefit tourism ambassadors, stakeholders, the general public throughout Jamaica.

• Tourism-dependent countries eg. Greneda

To assist tourism officials in achieving the following:

✓ Provide an awareness of the dangers of climate change and its effects Tourism
✓ To highlight the importance of the environment
✓ To highlight negative human factors (garbage disposal etc.)
✓ To implement mitigation measures
✓ To initiate policy changes
CAMPAIGN LIMITATIONS

• Climate Change is a global issue; one small attempt may not drastically curb the issue

• Behavioural change as a result of the campaign maybe long term but Climate Change issues need to be addressed expeditiously

• The implementation aspect of the campaign will be highly intensive: extensive planning and coordination efforts
SCOPE OF THE CAMPAIGN

• The campaign will run for one year; commencing in January 2013 and ending in December 2013

• The scope of the campaign is nationwide and will have showcases and interactions with the public at major cities in the counties of Cornwall (Lucea, Hanover), Middlesex (St. Ann’s Bay, St. Ann) and Surrey (Kingston)

CAMPAIGN JUSTIFICATION

• A campaign was chosen because research has shown where it is the most effective means of educating and influencing a large number of individuals within a short space of time.

• “VERB” Campaign (Huhman, M. et al., 2005)

• A public awareness campaign is a plausible tool that would be suitable in relaying our message to address the issue of climate change quickly and aggressively
CAMPAIGN CONTENT

• The main goal is to inspire individualistic behavioural change
  - Target audience: children, youth, existing tourism stakeholders
  - What is Climate Change
  - Ways to STOP Climate Change
  - How can I be a part of making a “Change”

• Coordination with existing conservation/sustainability programs eg. NEPA, National CCAB

• The use of local celebrities and business brand sponsorships
