USVI Ambassador Program

To recognize and empower United States Virgin Islanders to passionately promote the culture, music, cuisine, natural beauty and hospitality of their island home.

- The USVI Ambassador Program was created in 2011. The purpose of the program is to encourage Virgin Islanders living outside the territory to stay connected to home and to help promote the USVI as a vacation destination.
- The initial program consisted of a welcome letter from the Commissioner, overview of the territory's promotional offerings along with a package of brochures, collateral and giveaways.

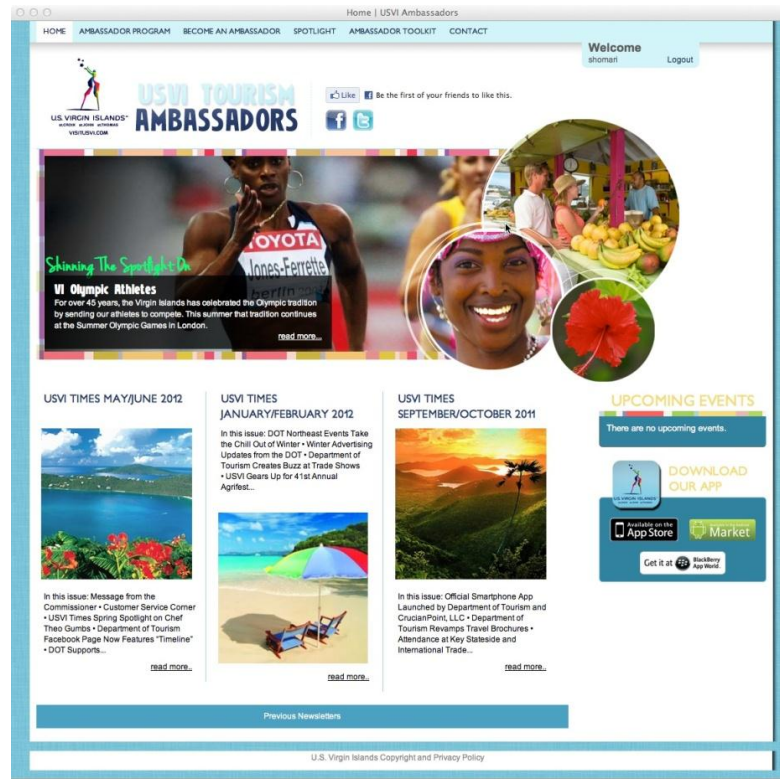

- The program has expanded to include ongoing dialogue, sales training and sales kits. Several ambassadors have referred visitors over the past year. To date, one ambassador has booked approximately 75 room nights.
- Currently the program has approximately 100 signed up members.

- Based on interest in the program the Department will launch the official Ambassador Website within the next month. It will feature music, recipes, a calendar of events both in the territory and stateside, feature stories on Virgin Islanders on the move, details on becoming a VI Ambassador, a chat module for connecting Virgin Islanders around the world and a downloadable sales kit.
